## WHAT I'M WORKING ON

## My Goal– Work as a Professional Developer

I love writing code, building apps, and learning new technologies. I work mainly with JavaScript but have some Ruby chops as well. I want to harness technology to help alleviate global problems such as unemployment, food wastage, and mental health. I am ardently seeking a junior developer role so I can become a better developer and contribute to a team.

## PROFESSIONAL SKILLS

JAVASCRIPT

RUBY

RAILS

HTML/CSS

REACT

SQL

## PROFESSIONAL EXPERIENCE

2015-2015

PENGUIN RANDOM HOUSE NYC

Data Entry

Contracts Department

Data processing duties using Excel to integrate with company database.

My project team was successful in digitizing contract archive, totalling over 100,000 entries, spanning more than 140 years.

2014-2015

ASITE SOLUTION LIMITED NYC

Technical Writing/Communications

Marketing

Generated content which transformed complex ideas into simple technical language.

My content made sales pitches clearer and led to an increase in sales.

2012-2015

BARUCH COLLEGE NYC

Office Assistant/Technical Writer

Student Affairs

Managed database tracking for all student conduct, health, and safety concerns.

Accessed multiple tables in DBMS using PrimaryKey, ForeignKey, and Constraints.

Increased student support and lowered incident rate for entire student body.

Created technical training manual that is currently being used for all staff training.

2005-2010

CELEBRITY CRUISES INTERNATIONAL

Orchestra Musician

Entertainment

As a professional musician I was part of an onboard musical act responsible of providing musical entertainment.

Succeeded in achieving the highest entertainment rating in the fleet.

Traveled to a total of 57 countries.
